DATE	CLASS	RATING	COMMENT
10/19/05	BIO	Average Quality Easiness Helpfulness Clarity Rater Interest	Her class is boring but the worst part is she plays favorites which isnt good at all Flag this rating
9/29/05	BIO101	Average Quality Easiness Helpfulness Clarity Rater Interest	exams are VERY HARD!grading system is unclear. Alos, there are A LOT OF LAB write-ups, if you not biologist, you're in a big trouble. She gives too much information in her lectures, she doesn't consider that it's only GENERAL BIOLOGY. If you don't want to spend all your time on bio, stay away,but I've to admit, she's prof in her field.VERY SMART. Flag this rating
